

No Taxation Without Aggravation

“This is outrageous!” says Fred, owner of the Fried Fat Food Cart.
 “The government has instituted **flat taxes on condiments**, which will affect all my menu prices and eat up every BIT of my profits! If I leave my special sauce combinations ON, I’ll have to raise all my prices; but if I take the sauces OFF, my customers won’t enjoy the food as much. If people aren’t willing to pay more for my fried fat specialties, I’ll have to think about cooking something else entirely!”

FRED'S MENU ITEMS (TAX INCLUDED)	Battered Fish	\$5.15
	Bridgetown Burger	\$3.08
	Corn Dog	\$1.02
	French Fries	\$2.01
	Hot Dog	\$4.06
	Sushi Surprise	\$6.28

What food may Fred consider selling instead?
