

THE NUT ROOM

"Welcome to the Nut Room, children! This is where we create, test, store, and distribute all of the nuts in the factory. Each nut has wondrous properties, though you'd best use them quickly, they tend to ROT! When they do, they change into something completely different, and we have to deal with the changes right away. Some rotten nuts even take multiple squirrels to deal with, but each squirrel can only deal with one nut. Anyway, we had a Snozzwanger hide some of our nuts, and now they've all gone rotten. Can you help me figure out what the nuts have turned into, and then get the error codes to the squirrel(s) that can best help each situation?"

In the end these nuts are best sold as: _____.

Example:

If a "Pecan" nut happens to rot, it will turn into a "Tiger". This incident has an error code of 4.

1 = QFDBO 2 = RGECP 3 = SHFDQ 4 = TIGER

To use the nut cracker, cut out the bar on the right-hand side of the page, and line up the arrow on the bar on the bottom of the page with an error code. Convert the letters on the top bar corresponding to the original nut to the letters on the bottom bar corresponding to the rotten nut.

Rotton Nut Response Squirrels	Error Code
Emily: An expert in identifying <u>counterfeit</u> items.	
Rachel: Wrote his thesis on the Roman <u>Colosseum</u> .	
Robert: Keeps all factory processes <u>eco-friendly</u> .	
Oscar: A boxer who always controls the <u>boxing ring</u> .	
Ryan: Oversees elements of the Wonka <u>franchise</u> .	
Carl: A physical therapist who specializes in the <u>leg bend</u> .	
Olivia: Keeps things stationary - not one <u>movement forward</u> .	
David: Able to easily <u>fasten</u> or <u>connect</u> two objects.	
Elmer: A great event coordinator, can easily fill a <u>stadium</u> .
