

Notebook SOLUTION

The five descriptions point to each of the characters in turn. The phrase “How to order them...?” lets you know they need to be rearranged. The phrases “There must be hidden connections!” and “Think like P.I. Magnum! Be resourceful” give the clue as to how to find the order. The underline singles out the word “number” hidden between those words, and indicating that you should look for hidden numbers within the descriptions. They are:

“one” in “so nervous”

“two” in “but would”

“three” in “worth re-examining”

“four” in “info: urge”

“five” in “if I've”

If you list the characters in that order you get:

Dino	Terranova
Emmett	Ingram
Tina	Valenti
Edna	Ellery
Carlee	Sommers

Reading down the initials in the first column then the second, you get “DETECTIVES.”
