Answer Sheet

Greetings Pokémon trainers! Tonight's adventure begins with four puzzles. Each of these will somehow solve to a short word or phrase. If you're joining Puzzled Pint for the first time tonight, please read the Puzzling Basics page by going to (<http://www.puzzledpint.com/basics>). Note that the "How to solve" section discusses puzzle techniques like indexing and using the code sheet, which have been provided to you along with your packet.

Puzzled Pint is not a competitive event. So, we encourage you to ask Game Control (GC) for hints as often as you'd like! Our goal is for you to have fun, not to be frustrated! While tonight's theme is Pokémon, these puzzles do not require previous knowledge of the games to solve. Nonetheless, feel free to use the internet when solving if you like.

When you've solved all four puzzles, confirm your answers with Game Control. If you've got them right, you'll receive the final metapuzzle, which requires the previous puzzle answers to solve.

When you're all finished, please return this answer sheet to Game Control, along with your code sheet and any borrowed items they provided. Returning your answer sheet with an accurate count of your team size will allow GC to make sure that we have enough puzzle packets and space for everyone in future months. Additionally, you'll be able to see how your time ranks relative to other teams worldwide on our web site.

To provide any feedback on your experience tonight, please email feedback@puzzledpint.com. Thanks for playing, and thanks to your local Game Control for organizing! Have fun!

– Steven (Mobile, AL) and Zack (Atlanta, GA)
