Diamonds

Eleven precious items and/or stones can be found in the below word search.
One has already been found for you. Can you find them all?

Find the items in the grid (not hard), then the unused letters spell "what's left". Note that the names of the stones fit in the boxes to the right, in alpha order, and each grey box is different.

In fact, all but 4 of the alphabet are used, leaving H, N, T, and U. The only anagram of these letters is HUNT.
