

JURASSIC PARK

Oh no! All the dinosaurs have escaped Jurassic Park and Dr Ellie Sattler has to go across the park and escape the raptors to get to the maintenance shed. She has to find all the switch components through the darkness.

Can you help Ellie find the SWITCH in the dark?

Once Ellie has found all the switches she needs to *feel* for the primer handle and flick the main switch.

Help Ellie reset the power to learn what Ellie will miss from Isla Nublar.
