

*Someone I Can
Barley Live With*

Rob's Note

Rob's note contains information that you will need in order to solve the puzzle. It calls out four groupings and the order of those groups.

Hey John,

You left the **water** on again! I **barley** made it home in time. I had to **hop** over the puddle it made. It looks like your science experiment in the fridge is growing **yeast**, please throw it out! Also, please straighten out your cases of beer in the basement.

Thanks,
Rob

It also clues into the fact that you have to "straighten out" the cases of beer, or line them up.

Cases

The cases have different names of beers. By grouping them into the four different groups specified in Rob's note and putting them in alphabetical order you get the following groups.

Water

- Clear Water IPA
- Elk Creek Porter
- Pacific Ocean Ale
- Waterfall IPA
- White Water Rapids Ale

Barley

- Barley's Rye
- Dark Barley Porter
- Morrison St Barley Wine
- Rasputin Barley Wine

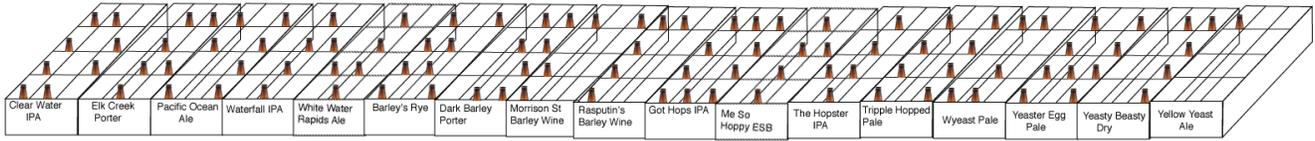

Hops

- Got Hops IPA
- Me So Hoppy ESB
- The Hopster IPA
- Tripped Hopped Pale

Yeast

- Wyeast Pale
- Yeaster Egg Pale
- Yeasty Beasty Dry
- Yellow Yeast Ale

Line up the cases in the order specified above.

The bottles in the cases spell out:

DRINKS TONIGHT
