

JUNE 2022

Answer Sheet

Welcome to Puzzled Pint!

Give us
Feedback!

Tonight

- We're here to help! This is not a competitive event. Ask the Game Control volunteers (GC) for hints as often as you'd like. The goal is to have fun, not to be frustrated!
- **If your location is running virtual**, go to the location page (linked on puzzle download page) and find out how to contact your local GC.
- **If you are collaborating online with your teammates (or have no printer)**: There is a Google Sheet this month! Download and make your own copy to collaborate online together. It can be found on the page where you downloaded the puzzles.

The Puzzles

- Each puzzle will solve to a short word or phrase. How? That's for you to discover.
- Need a code sheet or solving resources? Check out the Resources page on Puzzled Pint's webpage: <http://www.puzzledpint.com/resources/>
- You can use anything to help solve: Use your phone; the internet is fair game! Think your brother might have an insight? Give him a call!
- While each month has a theme, you need no special knowledge of the theme to solve.

About Puzzled Pint

- How did tonight go? Email us at Feedback@puzzledpint.com
- We're an all-volunteer organization.
 - Help us run locally: Talk with Game Control about how you can volunteer.
 - Help us run globally: <https://www.patreon.com/PuzzledPint>

JURASSIC PARK

Oh no! All the dinosaurs have escaped Jurassic Park and Dr Ellie Sattler has to go across the park and escape the raptors to get to the maintenance shed. She has to find all the switch components through the darkness.

Can you help Ellie find the SWITCH in the dark?

Once Ellie has found all the switches she needs to *feel* for the primer handle and flick the main switch.

Help Ellie reset the power to learn what Ellie will miss from Isla Nublar.

JURASSIC PARK 2: THE LOST WORLD

Page 1 of 2

After discovering the second site that John Hammond created on Isla Sorna, you've joined the team to document the dinosaurs that are living there. Now you find yourselves stranded, surrounded by dinosaurs that are trying to eat you! As you are searching around the buildings on site B, you find a torn off note and a map of Muertes Archipelago & Isla Nublar (on next page). Once you have decoded the message from the note, use the map to find the way to escape.

23 May 1994

The dinosaurs have all broken out of containment. In order to escape the island use this key. Remember that a T-Rex can't see you if you don't move or shift, so only move four steps at a time.

ANSWER: _ _ _ _ _

JURASSIC PARK 2: THE LOST WORLD

Page 2 of 2

JURASSIC PARK III

The Kirbys lost their son on Isla Sorna, so they tricked Dr. Alan Grant into rescuing him. They know that they need to give him some important information now that they are safe on the mainland, but they cannot remember what happened on the island. Can you help them figure out which item they came across when they saw each dinosaur and match them up?

Each item will lead you to the order of events. Then, the Kirbys will be able to *signal* information to Dr. Alan Grant as he sails off on the boat back to his home. What is the message they want Dr. Grant to know?

JURASSIC WORLD

The park has been running smoothly... until the Indominus Rex escaped! The InGen soldiers are already out in the field ready to capture (or if necessary kill) the Indominus Rex. Owen Grady is tasked with organizing the velociraptors to join the InGen soldiers out in the field. Can you help Owen determine which sections in the battlefield need a raptor to report for duty?

Help Owen place 20 raptors on the battlefield so they can be in the best place to attack the Indominus Rex by using the following rules:

Each InGen Soldier needs their own raptor to join them (either horizontally or vertically adjacent to them), but raptors can be adjacent to more than one soldier.

The raptors need to be separated (can't be horizontally, vertically or diagonally adjacent to another raptor).

The numbers for each column/row indicate the number of raptors within that column/row.

Once all the raptors are in the field, you will be able to see who came out of the battle injured... but thankfully alive!

DR. WU BONUS IN THE LAB

Dr Wu has let the power of being able to create dinosaurs go to his head and he wants to create a super dinosaur to rival all other dinosaurs. He currently has these dinosaurs to choose from and he thinks combining 4 of these will give him his super dinosaur. Figure out which 4 dinosaurs he will use and then map their partial DNA strands onto the blank canvas to find out who he is keeping this super dinosaur a secret from.

You begin to search Dr Wu's office and you find Dr Wu's notes, can you use them to figure out which dinosaurs he wants to mix together to create the Super dinosaur?

Super Dinosaur Must Haves:

- Abhorrent pretender
- Hefty appendages
- Unique saurian
- Twiggy fiend of water
