

# PSYCHIC

The second Tuesday of the month arrives, but you're not sure if you're in the mood for Puzzled Pint. You visit your local Psychic to get a prediction about whether it will be worth going out or not.

You've come to have your fortune read, have you? Let your spirit guide you into picking a hand of four cards from the Minor Arcana. You can choose whichever cards you want, but you mustn't repeat any suit (Wands, Cups, Swords, Pentacles) or rank (Page, Knight, Queen, King). Once you have made your hand, take the sum of the positions of the four cards. Find the corresponding entry in the table below, and that will describe the night you will have.
