

THE COLOSSUS OF RHODES

Page 1 of 3

The Colossus of Rhodes was a towering bronze statue of the sun god Helios as tall as the Statue of Liberty. It stood high above the city harbor until it was destroyed by an earthquake only 54 years after it was built.

Many merchant ships are traveling through the harbor, carrying cargo as they sail underneath the spread legs of the Colossus. Determine their names to find an adjective that might describe the Colossus.

- | | | |
|---------|-----------|----------------|
| HUGE | BEHEMOTH | LEVIATHAN |
| HEFTY | ENORMOUS | GARGANTUAN |
| GOLIATH | GIGANTIC | MONUMENTAL |
| HULKING | PYTHONIC | SUPERSIZED |
| IMMENSE | GINORMOUS | ELEPHANTINE |
| MAMMOTH | HERCULEAN | BROBDINGNAGIAN |
| MASSIVE | HIMALAYAN | |
| TITANIC | HUMONGOUS | |

The appearance of the ships correspond to the letters in their names.
The blanks below are filled with the letters in G-I-A-N-T in some order.

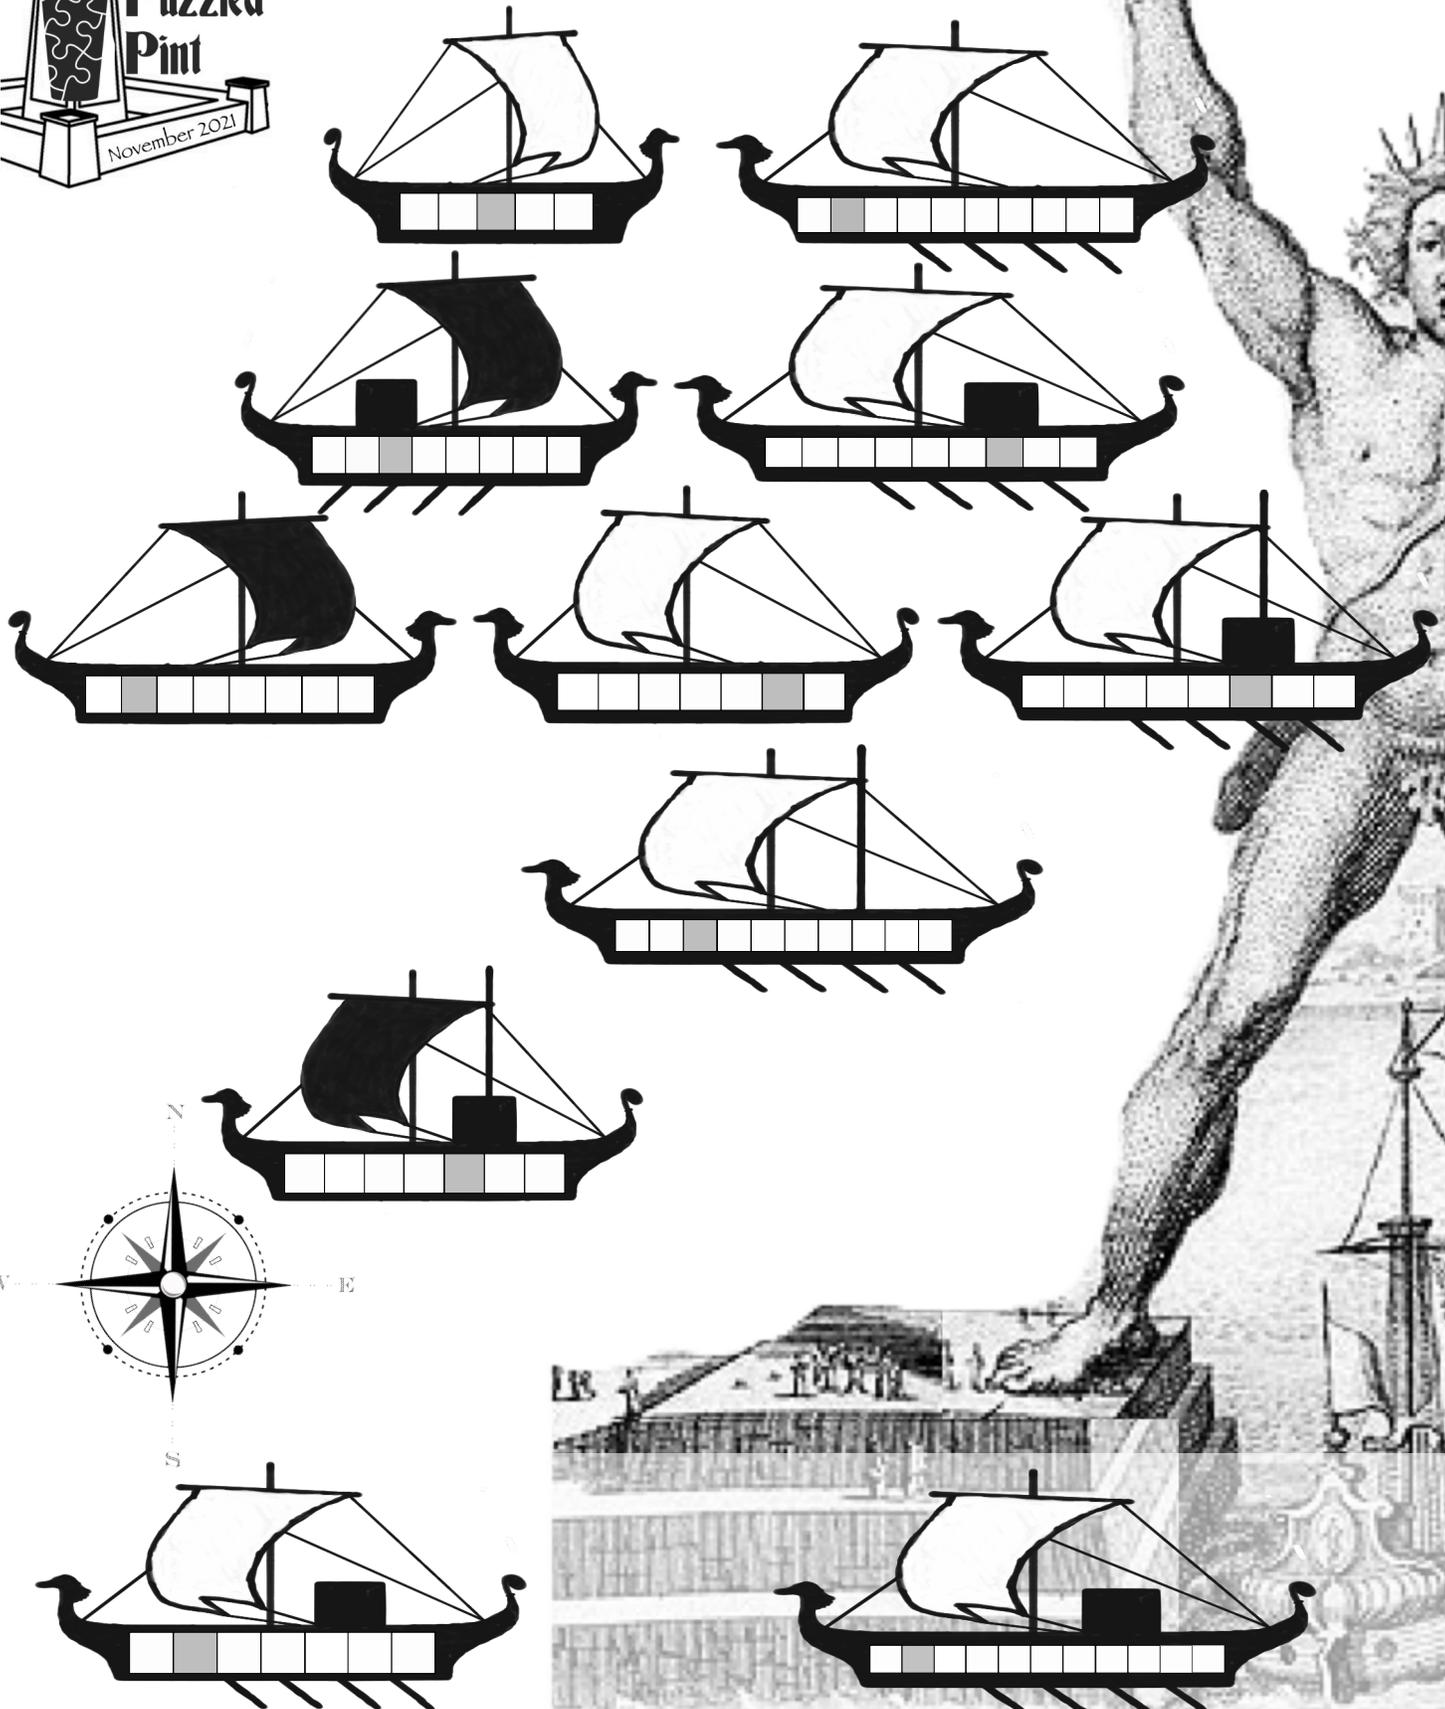

- | | |
|--|--------------------------------------|
| All ships with ___'s are west of the Colossus. | All others are east of the Colossus. |
| All ships with ___'s face west. | All others face east. |
| All ships with ___'s have two masts. | All others have one. |
| All ships with ___s carry cargo. | All others carry nothing. |
| All ships with ___'s have oars. | All others don't have oars. |
