*Someone I Can  
Barley Live With*

Hey John,

You left the water on again! I barley made it home in time. I had to hop over the puddle it made. It looks like your science experiment in the fridge is growing yeast, please throw it out! Also, please straighten out your cases of beer in the basement.

Thanks,  
Rob

---

In order to solve the puzzle you need to cut the cases out on the next page.
