

SOLUTION

Storm

Storm can control the weather, and she recently created a strong windstorm that blew a word- search puzzle into disarray.

In the word list, the letters in each word have become jumbled. Once each word is restored correctly, its letters are adjacent in the grid, but each word's path may change direction (horizontally or vertically, not diagonally), possibly several times. A grid letter cannot be used multiple times in the same word. Find all the words in the grid to reveal a word that might describe Storm.

Draw lines connecting the letters in each unscrambled word. These lines will form the letters HEROIC. (The unused letters hint “word lines form letters.”)
