

A New Year's Gathering

Difficulty: **Medium**

In 2016, we brought a few culprits to justice, celebrated new government with a regal party in a brewery near a renovated park, dealt with a rodent problem in the eye of the pyramid, and investigated both deep space and where the sidewalk ends. Now that you've slain the dragon, use these parts of the meta answers from this glorious year of puzzles to find what we should not forget about this year.

Enter in December's Meta answer, then reorder these boxes into the correct spaces on the next page (cut them out if you wish). Three boxes will not be used.
