

OH, THE PLACES YOU'LL GO!

Thing One and Thing Two are cleaned up from their baths.

They now enter the world and must **take different paths**.

The places they go will all be dynamite

if one wisely goes **Left** when one wisely goes **Right**.

Thing One wants to swim and might jump in a _____

while Thing Two cleans up new fallen leaves with a _____.

Thing One sees the end of a firefly _____

while Thing Two likes to water his plants so they'll _____.

Thing One's bungee _____ lets him bounce down and up

but Thing Two caught a _____ from the germs on his pup.

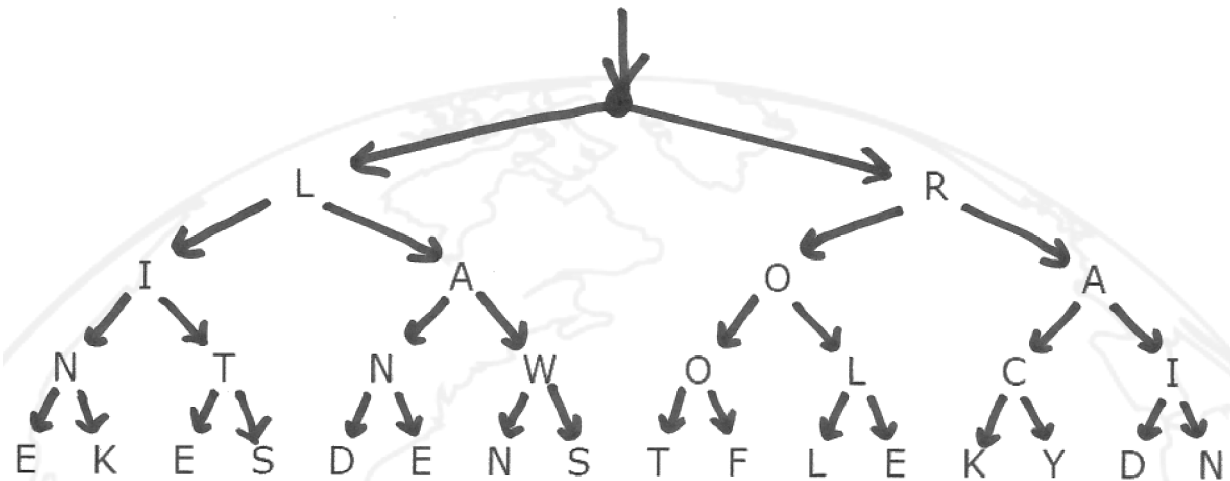

Thing One dodges _____, frozen rain from the sky,

while Thing Two combs his _____ and then blow-dries it dry.

If they **follow their paths** then **the letters they pass on**

will show one of late Dr. Seuss's great passions!
