

# Answer Sheet

## Welcome to Puzzled Pint!

Tonight your packet contains four puzzles. Each puzzle will somehow solve to a short word or phrase. If you're joining us for the first time tonight, please read our Puzzling Basics page by going to <http://www.puzzledpint.com/basics> or by scanning the QR code. Note the **"How to solve"** section that discusses puzzle techniques like indexing and using the code sheet, which should have been provided to you along with your packet.

Puzzling Basics

Puzzled Pint is **not a competitive** event. We encourage you to **ask Game Control (GC) for hints as often as you'd like**. Our goal is for you to have fun, not to be frustrated!

While we like to theme our puzzle sets, our puzzles do not require special knowledge of the theme to solve. Nonetheless, you are allowed to use the internet for general knowledge queries when solving, if needed.

When you've solved all four puzzles, confirm your answers with GC, and you'll get the final meta-puzzle, which requires the previous puzzle answers to solve.

When you're all finished, please **return this answer sheet to Game Control**, along with your code sheet and any borrowed items like pencils, tape, or scissors. Returning your answer sheet with an accurate count of your team size will allow us to make sure that we have enough space for everyone at our venues in future months and that we have enough puzzle packets available. Additionally, you'll be able to see how your time ranks relative to other teams worldwide on our web site.

To provide any feedback on your experience tonight, please visit <http://www.puzzledpint.com/feedback>

Thanks, and we sincerely hope you enjoy your evening! — *Puzzled Pint GC*

### Question of the Month

What venue(s) should we consider for hosting a future Puzzled Pint? \_\_\_\_\_

# Puzzled Pint

March 2018

## Divination

All Ron, Ginny, Fred, and George wanted to do was **cut** class, since they had Divination **from nine to twelve** in the morning, but they **joined each other** there anyhow to avoid losing points for Gryffindor. As usual, they couldn't make sense of their individual tea leaves, but the **dotty** old Professor Trelawney looked at the quartet and **dashed** back in fright. What did she foresee?

Oh no! Peeves the poltergeist went wild in the library, and several books have had pages torn out. While you may be able to match each page to its book by content, you will need to look up every word in the index to be sure of the author. Finally, ask the books where to find him.

Always magic  
overly depends  
on education;  
revealing truths  
obscured artfully  
compels two  
innovations.

Animagi achieve  
transformation  
maneuvering four  
canvases: capacity,  
formation, precision,  
alignment. Through  
painful tenacity,  
imagination  
metamorphoses  
implausible realities.

Commonplace things  
fully allow frivolous  
incantations. The  
genuine art subtly  
routes delicacy  
instead, outstripping  
three knowledgeable  
older operations.

Four safety  
examples should  
present aptly:  
Reducto, Stupefy,  
Accio, Evanescio.

Happily, each  
rudimentary  
magic invokes  
one nearly  
effortless,  
graceful  
rearrangement  
among nature,  
granting  
ephemeral  
remaking.

Machines are  
stunning things  
built from two  
certainly magic  
aspects: cleverness  
beside dynamite.

Objectively, that  
Nimbus created  
absolutely supreme  
brooms, actually,  
untruthfully,  
exempts three.

Through one  
method, raw  
intensity dominates  
darker life energy.
