

# Puzzled Print

September 2015

Eleventh Doctor  
(Matt Smith, 2010-2013)  
Known for his bow-tie and the  
occasional fez, this Doctor  
enjoyed having a relationship in  
reverse with his wife, River Song.

River Song  
Professor of Archeology. Part Time-  
Lord. Convicted of the Doctor's Murder.  
Married to the Doctor. Likes to say  
"Spoilers!" when he asks about his  
future. Died saving the Doctor's life.

## Time Loops

The war between the Time Lords and the Daleks has ripped apart the fabric of space-time itself. Instead of one continuous loop, time has broken into two parallel loops. You'll ultimately need help from a companion to set things right. Cut out the two strips along the dotted lines, then fold each in half along the long edge to form two two-sided strips. Tape each strip to itself to form two loops. Start by intercepting the message the Daleks are sending to each other across the timelines, then ask if the doctor is really spinning through the time vortex randomly or not!
