

Secret Santa SOLUTION

1. The enumeration by each photo gives the length of the word(s) the picture is showing. Identify the photos.
2. Each item was intended for another of the nine characters, but "the gifts were a little off". When one letter of each item is changed, it gives an item used by another character in their movie.
3. The changed letters give a solution. Start in the top left hand corner "A" (musk → mask), then go to the item brought by the character who received that gift. For instance, Darth Vader received Ariel's musk, so the next letter would be from the item Darth Vader brought.
4. The final answer is ALPHABET.
