

The well-known word game meets the vintage video game...

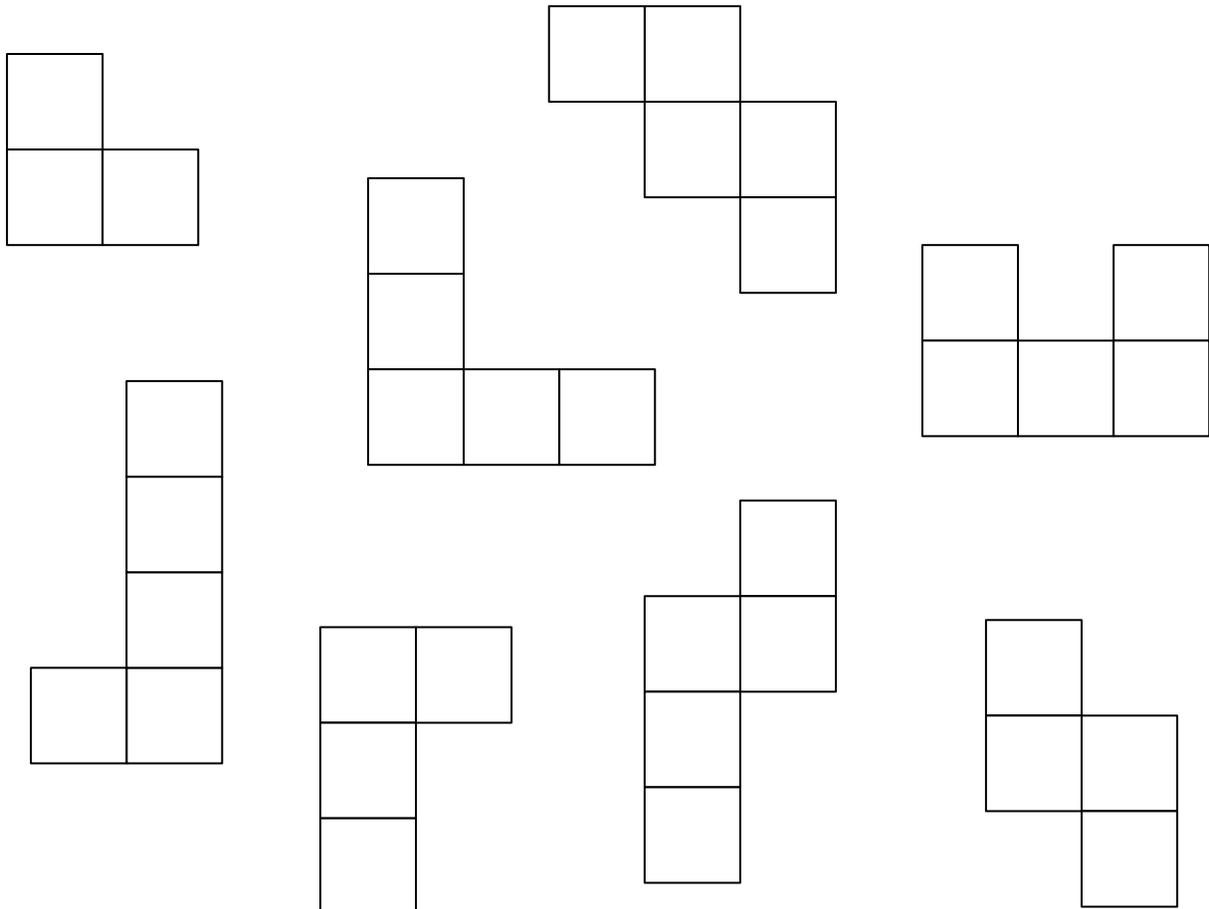

# BOGGIETRIS

## How To Play:

Cut out the colored tile shapes below, then use a subset of them to cover the letter squares in each of the grids on the next page. The letters covered by each shape will link together to spell a word. You must leave exactly one letter uncovered in each grid.

After completing all five grids, you'll know what title you've earned!

*NOTE: Shapes are double-sided and can be turned over as needed.*
