

Pintopia Press Delivery

by Wil Z. • Puzzled Pint location puzzle • May, 2017

Paperboy Pete is making his rounds on his trusty Schwinn to deliver the Pinto-pia Press. He never visits the same house twice, and each house on his path is a different color from the previous one. Determine which eight houses he delivers papers to, then discover why he and his bike never make it to the other houses.

1. Pete delivers a paper to his own home, which is not green.
2. He heads south until he reaches a black house.
3. He heads east until he reaches a house that doesn't share a color with any other house west or east of it.
4. He heads as far north as possible.
5. He heads to the nearest blue house.
6. He heads two houses south.
7. He heads as far west as possible.
8. He heads north until he reaches a house the same color as his own house.
