

Cat's Message SOLUTION

Luckova's bubbles

The three puzzle groups (magnifying glass, fingerprints/sleeping cat rebus, and back cover) solve to the answers "DETECTIVE'S LAST WORDS." This indicates that you should read the last word in each of Luckova's speech bubbles. When you do so, they spell out "Draw line connecting de cat tails. Fold on line. Lay paper flat for murderer."

FINAL PUZZLE

After reading Luckova's words, you know to connect the cat tails. Those "cat tails" are the images of the cats on the note on page 5. When you draw the line and fold along it, and then lay the page flat, the tops of the letters of "JUF PQJJIFBALALJ" overlap with the bottoms of the legs of the dancing men on the graffiti wall on page 3, and together spell "THE BOTTLER DID IT."
