

October 2020 Answer Sheet

Welcome to Puzzled Pint!

Tonight

- We're here to help! This is not a competitive event. Ask the Game Control volunteers (GC) for hints as often as you'd like. The goal is to have fun, not to be frustrated!
- **If your location is running virtual**, go to the location page and find out how to contact your local GC. <http://www.puzzledpint.com/october-2020/seasons/thetiltedaxisofourplanet/>
- **If you are collaborating online with your teammates**: There is a Google JamBoard this month! Download and make your own copy to collaborate on line together. It can be found on the page where you downloaded the puzzles.

The Puzzles

- Each puzzle will solve to a short word or phrase. How? That's for you to discover.
- Need a code sheet or solving resources? Check out the Resources page on Puzzled Pint's webpage: <http://www.puzzledpint.com/resources/>
- You can use anything to help solve: Use your phone; the internet is fair game! Think your brother might have an insight? Give him a call!
- While each month has a theme, you need no special knowledge of the theme to solve.

About Puzzled Pint

- How did tonight go? Email us at Feedback@puzzledpint.com
- We're an all-volunteer organization.
 - Help us run locally: Talk with Game Control about how you can volunteer.
 - Help us run globally: <https://www.patreon.com/PuzzledPint>

Puzzle Answers	
Unbridled Optimism	
Chillin' in the Multiplex	
Autumnal Gold	
Snow Blindness	
Meta: You Say You Want a Revolution	

Team Name:

Start Time:

Team Size:

End Time:

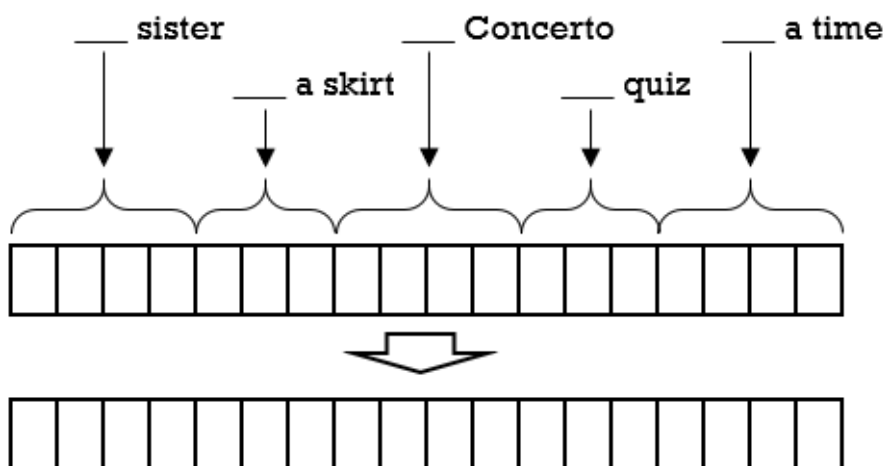

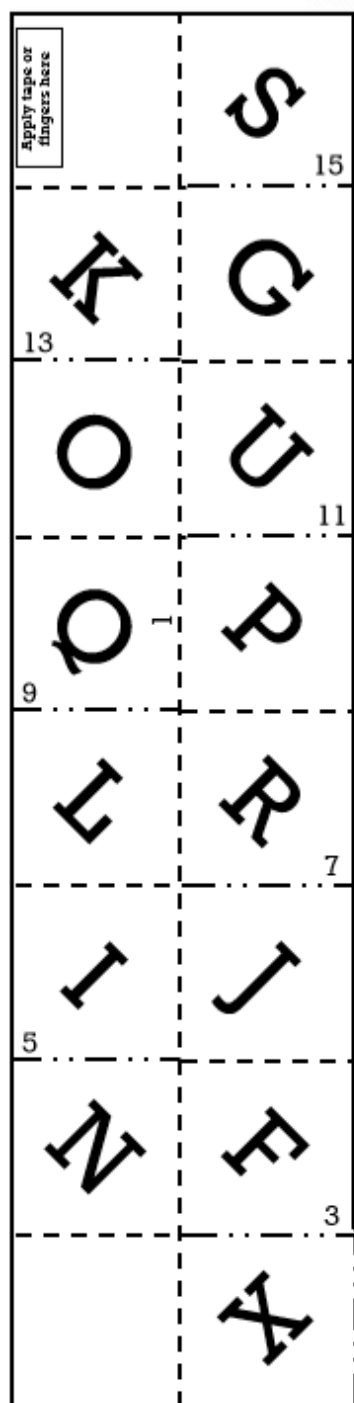

UNBRIDLED OPTIMISM

Flowers blooming, days lengthening, warmth returning... and unbridled optimism always welling forth...

Solve for the five words below. Next, cut out the large L-shape, fold back along lines 1 and then 2 to have letters visible front and back, and then, with the circle always facing down, fold forward* sequentially along the rest of the lines in order (3, 4...).

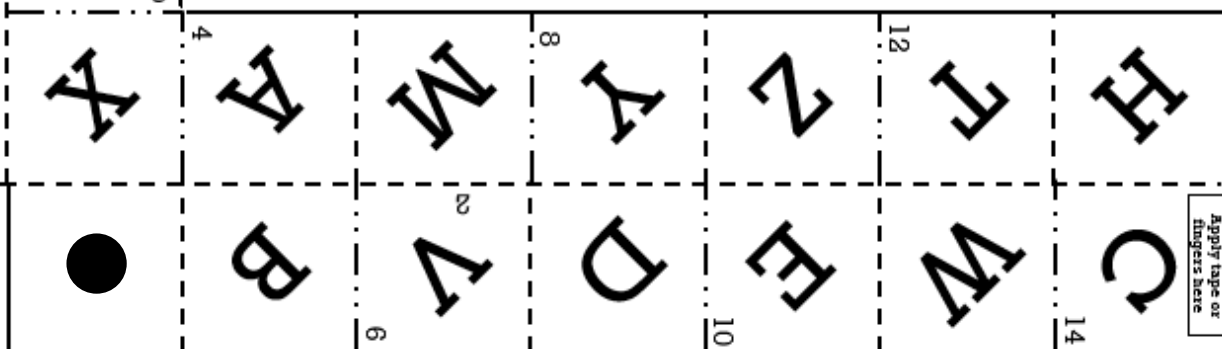

*or if you prefer: - - - - = mountain fold - · - = valley fold

Now take a deep breath and let out a well-earned **sigh**, for you are essentially **face-to-face** with the solution!

Five additional clues, in no particular order:

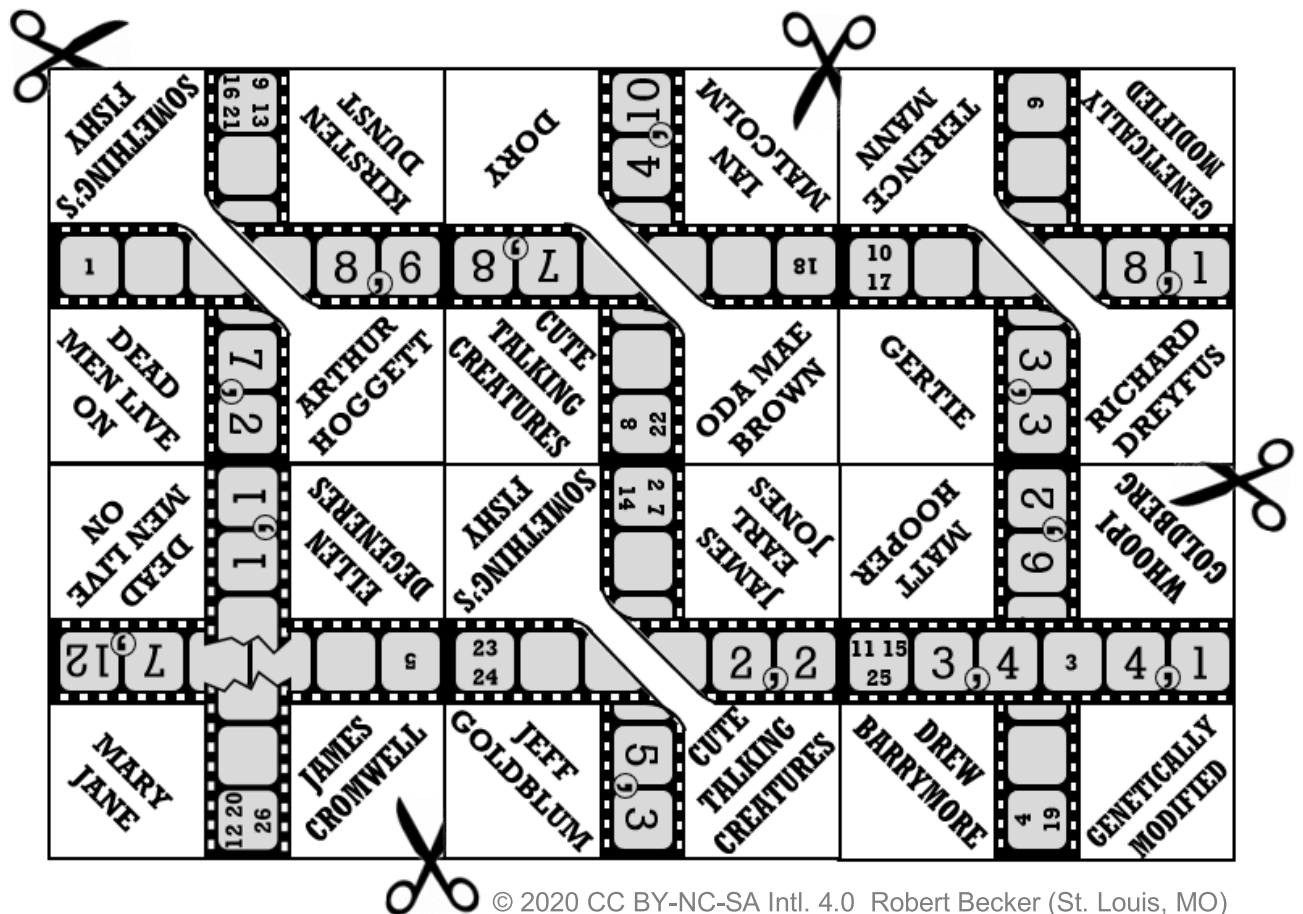

___ corn ___ & haw
___ moons ago
___ ladder ___ -elor

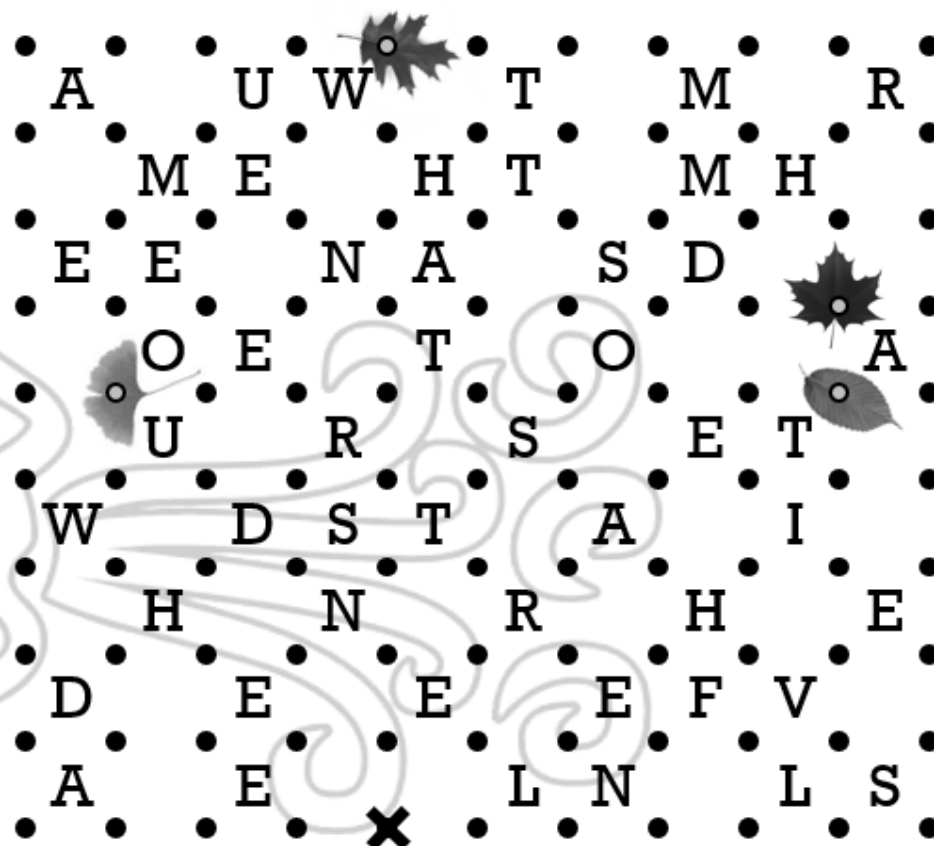

That may be so but...

So now it's time for you to make all the connections one vertex at a time, check the movie **index** (A to Z) to see what's playing where, and then go have some fun!

[illegible]

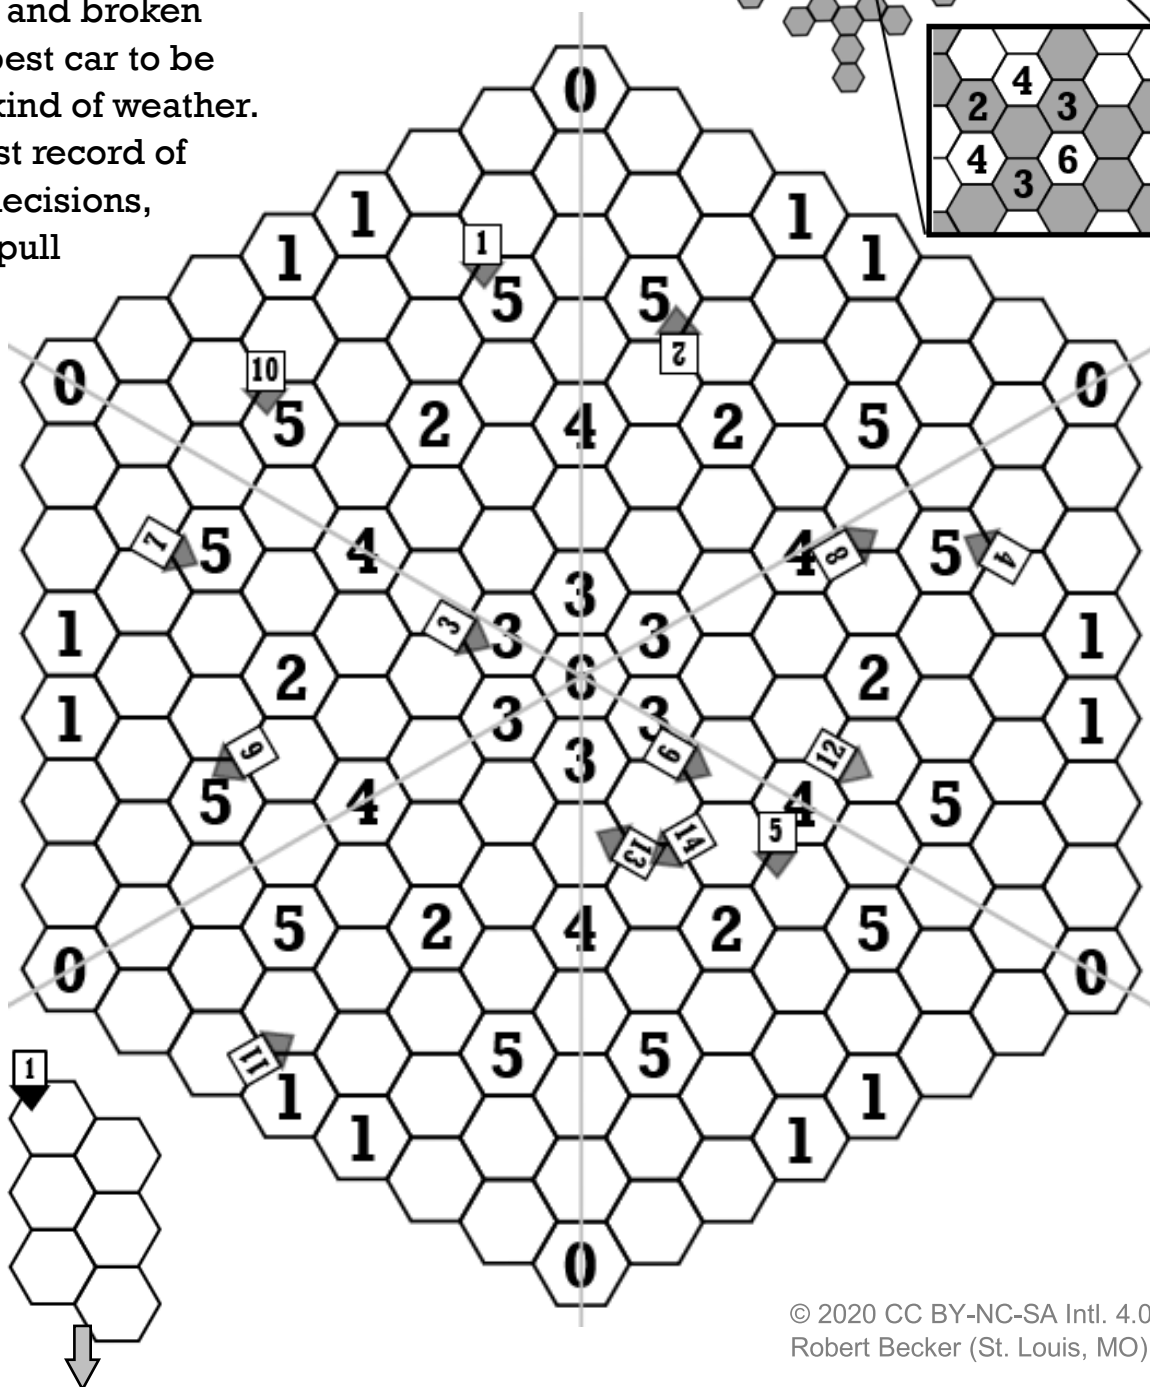

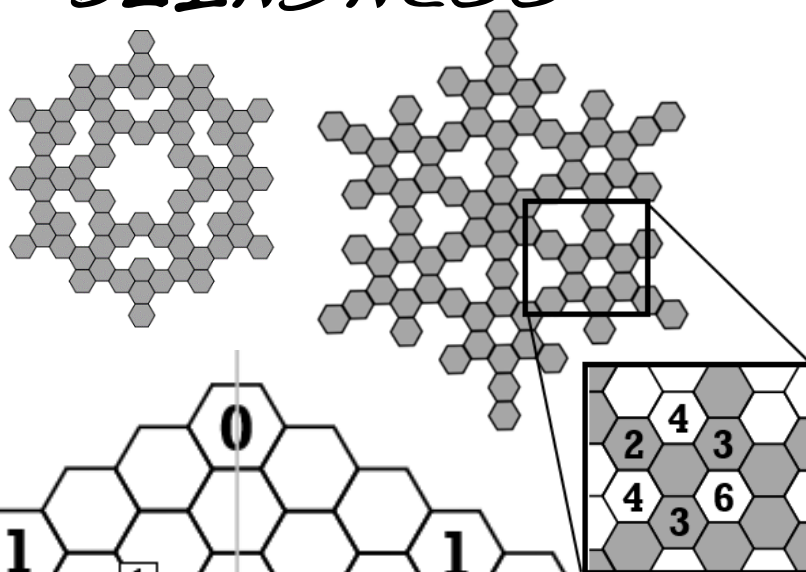

[illegible]

But before you *write some afore-*mentioned verses with your pen flitting its way across this page, consider what you might win if you were to bet someone a good sum of money that four such leaves might all land on the exact same spot.

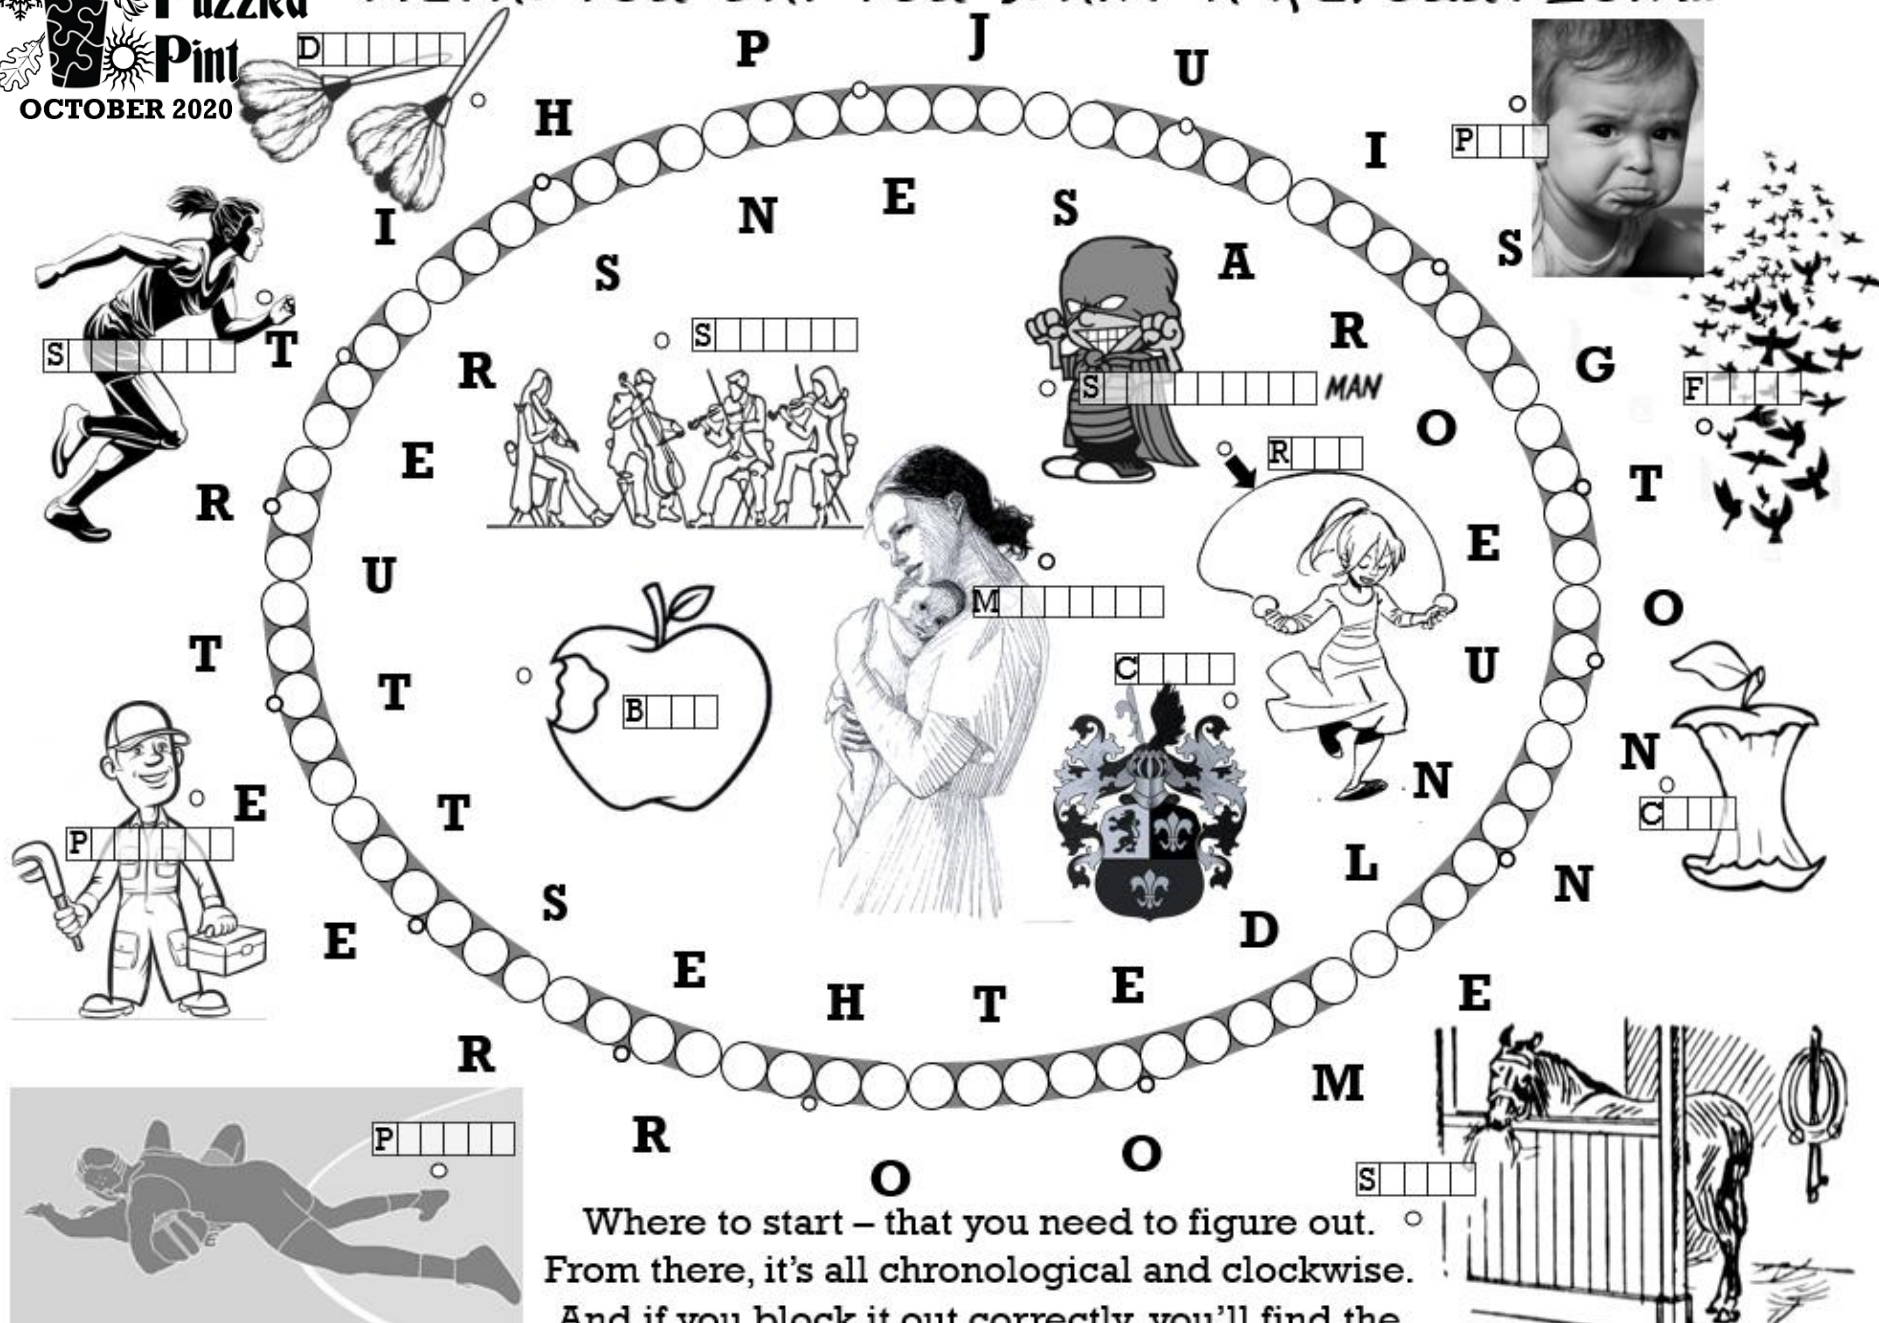

And as you reflect upon the beautiful symmetry of a single, fully-connected, crystalline snowflake landing on your windshield, you wish there were some way to erase all those old mistakes and just start with a clean slate.

META: YOU SAY YOU WANT A REVOLUTION...

Where to start – that you need to figure out.
From there, it's all chronological and clockwise.
And if you block it out correctly, you'll find the
rhymes and reasons to these annual seasons.

TURN, TURN, TURN

- _____ The kind of walk one might take on a chilly autumn day (7)
- _____ Red-carpet inhabitant during Oscar season (3)
- _____ Curvaceous ice-skating figure (2)
- _____ A cold-blooded bite that could cost you a finger or two (12)
- _____ Kentucky blue, fescue or zoysia – keeping it green through the dog days (9)
- _____ The very first thing chicks do in the spring (1)
- _____ Wreaked all over during hurricane season (13)
- _____ Hockey infraction and year-round cake topping (14)
- _____ Pants material best suited for warmer months (8)
- _____ The color of leaves in the fall or a natural clay earth pigment (4)
- _____ A mouthful of garlicky, pine-nutty green summer goodness (5)
- _____ Cold weather neck-wrap (11)
- _____ Conventional wisdom: get these cleaned twice a year (10)
- _____ A perennial Dutch harbinger of warmer days ahead (6)
